

If A Disaster Happens

- Remain calm and patient. Put your plan into action.
- Check for injuries.
- Give first aid and get help for seriously injured people.
- Listen to your battery powered radio for news and instructions. In the greater Park City area listen to KPCW 91.7 FM and Park City Highway Alert Radio (HAR) 1700 AM. Stations for the Wasatch Front are: KSL-Radio 1160 AM; KALL-Radio 700 AM.
- Evacuate if advised to do so. Wear protective clothing and sturdy shoes. You may be asked to "Shelter-in-Place."
- Check for damage in your home.
- Use flashlights -- do not light matches or turn on electrical switches if you suspect damage.
- Check for fires, fire hazards, and other household hazards.
- Sniff for gas leaks starting at the water heater. If you smell gas or suspect a leak turn off the main gas valve, open windows, and get everyone outside quickly.
- Shut off any other damaged utilities. If not damaged you may leave utilities on.
- Clean up spilled medicines, bleaches, gasoline, and other flammable liquids immediately.
- Locate your 72 hour kit or preparedness supplies and put them in a safe location.

Remember to:

- Confine or secure your pets.
- Call your family contact -- do not use the telephone again unless it is a life-threatening emergency.
- Check on your neighbors, especially elderly or disabled persons.
- Make sure you have an adequate water supply in case service is cut off.
- Stay away from downed power lines.
- Do not turn on utilities. That should only be done by a trained utility employee.
