

Answers to questions regarding the RFQ:

1. The more information you can provide, the better. Phase I will just include a workshop with our staff where your team will provide ideas and a potential work plan- operational and capital. We would like a statement of qualifications and potential team for additional phases but the fee proposal is less important as we understand that there is much unknown at this point in terms of hours and potential tasks.
2. *To clarify: On Page 3 under Project Timeline, the Project Timeline states: "Park City is hoping to have preliminary results by winter and the first phase of work concluded by June 30, 2016."*
 - a. We hope that our workshop will be complete and we will have a prioritized plan created with the contractor that we can begin to put to work by June 30, 2016.
