Parking downtown got you down? Help us develop solutions.

Park City is developing a strategic parking management plan for the downtown area to improve access for residents, businesses, employees and visitors.

The primary goal of the study is to make it easier and more convenient to park downtown. The Plan will create a strong vision for managing parking in both the near- and long-term. The Plan aims to increase foot traffic, reduce traffic congestion, better manage high demand from special events, and improve enforcement, operations, and management.

Help City staff and consultant staff develop the best possible plan. Your input is needed!

OPEN HOUSE

Wednesday, November 11th
4-6 PM
Treasure Mountain Inn
255 Main Street

GIVE US YOUR IDEAS!

Please come to the Community Open House to learn about the project and help us answer some key questions:

- ▶ What are your biggest parking concerns?
- ▶ What is your vision for parking in downtown and on Main Street?
- ▶ What types of parking improvements and policies do you most want to see?
- ▶ How can this project best support residents, employees, and businesses?
