Subject: Treasure Development Review

To Whom It May Concern:

I am very strongly opposed to the Treasure development. I own two condos at 920 and 906 Lowell Ave with my family and we value the proximity to the resort in a quiet neighborhood. To have such a development as proposed is totally inappropriate for the Lowell/Empire neighborhood. I don't understand why a proposal that was approved 30 years ago is still valid. I also don't understand why a project that is more than 3 times bigger than what was originally proposed is even being considered. I think the city should once and for all deny this proposal. None of the concerns of the neighbors have been addressed — concerns over noise, congestion, safety, traffic, access for emergency vehicles, snow removal, etc, etc. The scale of the project does not fit into this location. There is only one very narrow road which is already congested in the winter during ski season and unsafe for pedestrians. To add this amount of traffic is nonsensical.

Sincerely,

Dr. Christine Hult
