Subject: Treasure Hill Convention Center

At the last meeting THINC's attorney Charles Stormont was assured by the committee that all meetings about Treasure Hill would be in the open. When I reiterated our concerns that meetings were being held on the side, outside of the public's ability to comment and participate, the chairman looked me right in the eye and told me that side meetings would not happen. Well, if the Park Record is to be believed a side meeting happened that evening. Fortunately, it appears that nothing was agreed to, but how is the public to know if we were not party to the conversation?

I realize that the Sweeny's, their partners and attorneys view us as an impediment that can be ignored. I would ask that the Planning Commission not do the same.
