Hello –

My name is Erhan Ayan, I live in at Silver Springs neighborhood and I am strongly against TH development.

I believe, it is safe to assume we are going to see an unprecedented level of assault on environment at the Federal and State level for the foreseeable future. At this point, only check and balance we have is our local government and agencies.

I hope you'll take responsibility of stewardship to the heart and make a decision that will protect and cherish this beautiful town we live in.

Best,  
Erhan Ayan
