Subject: Treasure Hill Comments

Sirs,

My wife and I have reviewed the documents and model that was on display at City Hall.

Based on that information we are strongly opposed to having the Treasure Hill Development proceed. The two prime reasons that we are opposed are; the increased residential and commercial traffic that would need access to the development on streets that are stressed just to handle the PCMR traffic and the request to have retail development in excess of 5%.

Additionally, as depicted the development would scar a beautiful mountain landscape with excavation and a complex that is not aesthetically in sync with our beautiful Old Town community.

Best Regards,

Larry & Patti Schmida
