to all:

I received this yesterday in email. it may have been sent individually to the whole commission, but I was the only person on the email that I received.

thanks, dougt

Dear Commissioner,

I am unable to attend the meeting on Wednesday but wish to express my opinion.

As a 45 year resident I am simply terrified at the scope of this proposal.

Our lives as residents will never be the same if the development is approved as proposed.

The impact leading up to completion could drive us out, and if we stay, the completed proposed project will keep us from Old Town during most of the year. Of course the problems radiate and will be felt from Empire to Kimball Junction and Quinn's.

I do not know what can be done to mitigate the size/scope of the project at this point (the history is almost impossible a lay person to grasp), but I beg and implore you to do whatever is legally possible to prevent this nightmare from happening.

Sincerely,  
Juli Bertagnole
