**Subject:** This is insane

The city simply doesn't have the infrastructure to support such a development. Traffic and congestion are already issues within downtown. This development is not smart longterm planning. The quaintness of Park City is already going away and this unchecked growth will ruin the very reasons people come here in the first place. If Park City becomes too crowded and congested people will go someplace else and the overdevelopment will drive down prices on everything. This short-term gain is a long-term disaster.

Wake up to the reality of what is being done to this great little city and stop thinking about the almighty dollar.

David Ryan
