Subject: **Feed back from an Old Town resident**

Hello,

I oppose the planning commission's approval of the CUP for an open air private deck/event center in the Kimball building. Old Town residents are getting fed up. Park City will lose its charm if there are no families living in OT and it is all second homes and nightly rentals. PLEASE think about the residential homes that surround Main Street and other areas in OT when events are scheduled.

I have asked this before and I ask it again: Would you want this in your back yard or across the street from your home?

Thank you,

--
