

# Construction Notice

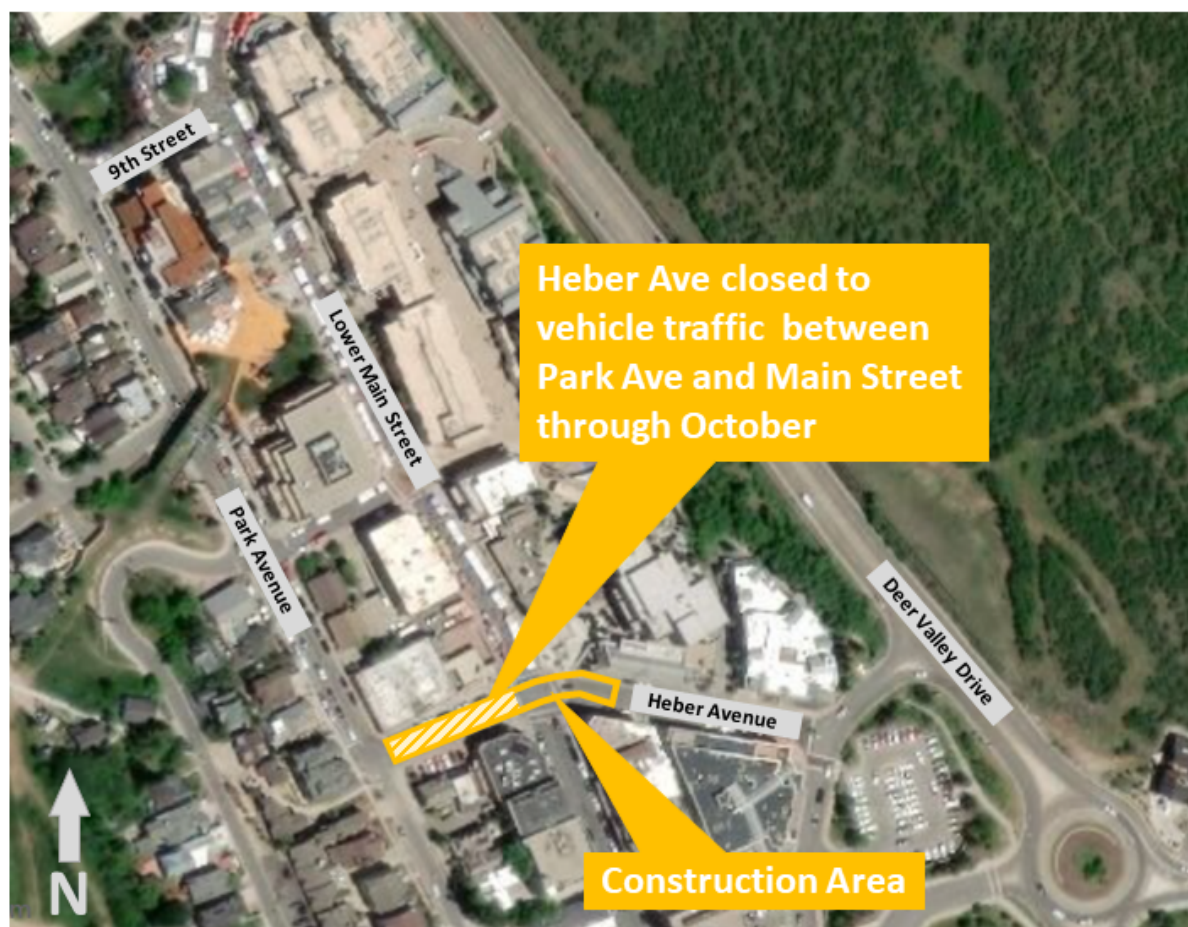

## HEBER AVENUE WATER LINE REPLACEMENT

**SCHEDULE:** Approximately 4 weeks, starting October 4, 2018.

**CONSTRUCTION PURPOSE:** This project will replace two water lines on Heber Avenue between Park Avenue and approximately 200' east of Main Street. This work was scheduled to happen with the potential Park Avenue road project, but due to repeated failure of the water lines staff is expediting replacement. Work is anticipated to be complete by the end of October.

**ANTICIPATED CONSTRUCTION IMPACTS:**

- Lane restrictions will be in place along Park Avenue near the intersection of Heber Avenue and Park Avenue on October 4 as crews connect to existing water line.
- Heber Avenue, between Park Avenue and Main Street, will be closed through the month of October. During the Heber Avenue closure, Transit will use 9th Street as an alternate route.
- Work will extend through the intersection of Main Street and Heber Avenue, starting mid-October. This work will require lane restrictions.
- Water services will be maintained during construction except during brief periods to connect the new water line to the existing system. Property owners will be informed prior to shut-offs.
