CONTINUING EDUCATION: AIA AND GBCI

PARK CITY LIVING FUTURE SYMPOSIUM

The Living Building Challenge is the world's most rigorous proven performance standard for buildings. People from around the world use this regenerative design framework to create spaces that, like a flower, give more than they take.

Come to this presentation and community discussion tailored to the unique nature of Park City to learn about how you can help "support the transformation toward communities that are socially just, culturally rich and ecologically restorative."
