

# Construction Notice

## MARSAC ROUNDABOUT SEWER REPAIR PROJECT

**ESTIMATED TIMELINE:** Monday, November 4, 2019 7:00 a.m. - Friday, November 9, 2019, 7:00 p.m.

**CONSTRUCTION PURPOSE:** Insituform will begin construction on November 4 to repair 126-linear feet of public sewer pipes through the intersection of the Marsac Roundabout and Marsac Avenue. The pipes are severely deteriorated from sanitary sewer flows and sewer gases. This project will line the existing pipe with a corrosion-proof liner.

### IMPACTS:

- Local access will be maintained on Deer Valley Drive, Marsac Avenue, Swede Alley, and Old Town Transit Center Road.
- PLEASE NOTE: On Election Day (November 5), voters may access the City Hall voting assistance center (open from 7:00 a.m.-8:00 p.m.) via the North Marsac parking lot.
- The north entrance to Ontario Avenue will be closed throughout construction. Traffic will be rerouted to Rossie Hill Drive for local access.
- Access to most driveways and properties will be maintained, although there may be delays. Alternate parking and accommodations will be made available for properties located within closure zones.
- The goal is to maintain full-width traffic lanes on Deer Valley Drive and one lane on Marsac Avenue during all hours.
- Traffic control will remain in place during nighttime hours to protect equipment.
