DESCRIPTION

Architectural Style: Pyramid House (variant)								
No. Stories: 1								
Number of Associated Structures:	Accessory building	(s). #	Structure(s)	. #				
Condition: Good	Fair	Poor	Uninhabitab	le/Ruin				
Location: Original location	Moved (Date:	,original locatio	on:)				
Materials: (Describe the visible mater	ials)							
Exterior Walls: Drop siding								
Foundation: Tax cards-1949, 1957 &	1968indicate no foun	dation or found	ation of wooden	sills. No indication				
on site that foundation has been upgr	aded							
Roof: Truncated hipped roof sheathed	d in asphalt shingles							
Windows/Doors: double-hung sash ty	pe and paired multi-pai	ne casement wi	th fixed transom					
Additions: Major	Minor	None						
Alterations: Major	Minor	None						
Describe Additions/ Alterations (Dates	s):							
Essential Historic Form: Retains		Doe	s Not Retain					

NARRATIVE DESCRIPTION OF PROPERTY

(Briefly describe the property and its setting. Include a verbal description of the location; a general description of the property including the overall shape, number of stories, architectural style, materials, shape of roof; identify and describe any associated structures; identify any known exterior additions and/or alterations.)

412 Marsac is described in a 1984 National Register nomination as follows:

"This house is a one story frame variant of the pyramid house with a truncated hip roof. It is a variant of the pyramid house. Typically the pyramid house has a truncated hip roof or a pyramid roof, a square four-room plan, a symmetrical or nearly symmetrical facade with a door generally centered between two windows or window bands, and a porch spanning the facade. This house has a square plan and a truncated hip roof, but it varies from the standard pyramid house type in that there is no attached porch. Instead, the northwest half of the facade is recessed, and a porch fills the recessed section. There is a single broad window on the south side of the facade. The size of the opening has not been changed, but the original glass was replaced by a multi-paned window with one horizontal and two vertical panels. The original window may have been a large single pane window with a transom. There is a door and a double hung sash one over one light window on the recessed north half of the

facade, and a door and a pair of double hung sash windows on the north side of the building. A deck was added to the rear of the house, and minor superficial changes were made to the northeast corner of the building. Those changes are unobtrusive, and the building retains its original integrity."

In addition to the above description, the roofing originally had hexagonal shingles, shown in the 1940s tax photo. Since then they have been replaced with asphalt shingles. The posts of the porch appear different than the photo from the 1940s, and the decorative brackets are different, thus suggesting there has been some rebuilding and replacement of those elements. The overall form and materiality of the house remains intact and the house retains its historic value

SIGNIFICANCE

Historic Era:

Settlement & Mining Boom Era (1868-1893)

Mature Mining Era (1894-1930)

Mining Decline & Emergence of Recreation Industry (1931-1962)

Narrative Statement of Significance:

(Briefly describe those characteristics by which this property may be considered historically significant.)

To quote the 1984 National Register nomination form:

"Built c. 1902, the Elizabeth M. Jones House at 412 Marsac is architecturally significant as one of only five well preserved examples of a variant of the pyramid house, one of the three most common house types built during the early period of Park City's mining boom era. The pyramid house was built with a number of variations. This one is characterized by the typical square form and hip roof, but is distinguished from the basic pyramid house in that instead of having a porch spanning the façade, the porch is set into a recessed section of the façade. Pyramid houses make up about 20% of the total number of in-period buildings in Park City, and about 30% of the pyramid houses are included in this nomination.

"This house was built between 1900 and 1907, as indicated by the Sanborn Insurance Maps, but the exact date of its construction, and the name of its original owner are not known. It is likely that it was built around 1902, when several of the neighboring houses of a similar type were constructed as part of the rebuilding of the town after the great fire of 1898. This house apparently replaced an earlier house on this property, which had been owned since

1882 by William B. Jones. Jones died in 1900, before the estimated date of construction of this house, but

Elizabeth M. Jones, probably either his sister or mother (he never married), continued to own this property until

1916. That year it was deeded to Lee Brayton Wight, a well-known local attorney, who was serving as guardian to

the estate of Elizabeth Jones, "an incompetent person." Wight apparently rented out the house until selling it in

1930."

Building Type/Style:	Pyramid House (variant)

Description of physical appearance & significant architectural features: (Include additions, alterations, ancillary structures, and landscaping if applicable)

This house is a one story frame variant of the pyramid house with a truncated hip roof. It is a variant of the pyramid house. Typically the pyramid house has a truncated hip roof or a pyramid roof, a square four room plan, a symmetrical or nearly symmetrical facade with a door generally centered between two windows or window bands, and a porch spanning the facade. This house has a square plan and a truncated hip roof, but it varies from the standard pyramid house type in that there is no attached porch. Instead, the northwest half of the facade is recessed, and a porch fills the recessed section. There is a single broad window on the south side of the facade. The size of the opening has not been changed, but the original glass was replaced by a multi-paned window with one horizontal and two vertical panels. The original window may have been a large single pane window with a transom. There is a door and a double hung sash one over one light window on the recessed north half of the facade, and a door and a pair of double hung sash windows on the north side of the building. A deck was added to the rear of the house, and minor superficial changes were made to the northeast corner of the building. Those changes are unobtrusive, and the building retains its original integrity.

Statement of Historical Significance:

Construction Date: c. 1902

Built c. 1902, the Elizabeth M. Jones House at 412 Marsac is architecturally significant as one of only five well preserved examples of a variant of the pyramid house, one of the three most common house types built during the early period of Park City's mining boom era. The pyramid house was built with a number of variations. This one is characterized by the typical square form and hip roof, but is distinguished from the basic pyramid house in that instead of having a porch spanning the facade, the porch is set into a recessed section of the facade. Pyramid houses make up about 20% of the total number of in-period buildings in Park City, and about 30% of the pyramid houses are included in this nomination.

This house was built between 1900 and 1907, as indicated by the Sanborn Insurance Maps, but the exact date of its construction, and the name of its original owner are not known. It is likely that it was built around 1902, when several of the neighboring houses of a similar type were constructed as part of the rebuilding of the town after the great fire of 1898. This house apparently replaced an earlier house on this property, which had been owned since 1882 by William B. Jones. Jones died in 1900, before the estimated date of construction of this house, but Elizabeth M. Jones, probably either his sister or mother (he never married), continued to own this property until 1916. That year it was deeded to Lee Brayton Wight, a well-known local attorney, who was serving as guardian of the estate of Elizabeth Jones, "an incompetent person." Wight apparently rented out the house until selling it in 1930.
