

Special Events Department City Hall, Third Floor 445 Marsac Avenue P.O. Box 1480 Park City, Utah 84060

## **Special Event Permit Application**

#### APPLICATIONS DO NOT CONSTITUTE AS A PERMIT. PERMITS ARE APPROVED BY THE SPECIAL EVENTS DEPARTMENT OR CITY COUNCIL AFTER COMPLETE APPLICATIONS ARE REVIEWED UNDER PARK CITY MUNICIPAL CODE 4A.

Applications for Level 3, 4, or 5 Special Event Permits are due: First Friday in October for events occurring between March and August First Friday in April for events occurring between September and February

Events that are determined a 1 or 2 are exempt from these deadlines but must submit a complete application no later than 30 days prior to an event. **Please Note**: The City reserves the right to restrict the number of event permits annually. Applications for new events may not be considered during Peak and Local Time Periods as mentioned in Sections 4A-2-3(E-F). Incomplete applications cannot be reviewed. Applications submitted after the deadlines as described above may be denied. Business/Organization listed as applicant must match the Hold Harmless and Proof of Insurance to be considered for approval. For more information, please visit www.parkcity.org or contact us at stephanie.valdez@parkcity.org.

# Outdoor Special Event Emergency Operations Plan (EOP) 1884 IMPORTANT – PLEASE READ THIS DOCUMENT IN ITS ENTIRETY

This outdoor special event emergency operations plan (EOP) is meant to train event volunteers/personnel as well as to create a more specific EOP for events. It is the event organizer/responsible party's duty to train event personnel in the following potential emergencies and to make sure that all key and supervisory event personnel are documented on the attached section with a number to contact them at during the event, their assignment and its location. With this event EOP, a map of all areas that the event will encompass is included. It outlines the area of the event, evacuation routes and ingress/egress for emergency personnel.

#### Fire & Medical Emergencies

## Police, Fire and Ambulance will respond based on the initial call. Police personnel are trained in first aid and can provide stabilization until the ambulance arrives.

#### In Case of a Medical Emergency:

- 1. Call 911 (Stay on the telephone if possible until the dispatcher has all needed information). Give the nature of emergency,
- 2. Location (Your specific site location),
- 3. Your name and phone number where you can be called back,
- 4. Do not move victim unless absolutely necessary,
- 5. And stay on the telephone until the Dispatcher has all needed information and allows you to hang up.

#### In Case of a Fire:

- 1. Call 911 (Stay on the telephone if possible until the dispatcher has all needed information).
- 2. Give the nature of emergency and the location. Stay on the phone long enough to answer any questions the dispatcher might have. This will ensure that proper equipment and personnel respond. Police will provide rescue, traffic, communications and crowd control.
- 3. Alert people in the immediate vicinity to evacuate to safest designated areas. [SEE ATTACHED MAP(S)]
- 4. Use fire extinguisher if the fire is small and you have been trained in how to operate the device.
- 5. Never breathe the smoke from fire. Stay low and crawl if necessary to avoid it. Smoke from some plastics and other common materials are toxic. Stay upwind so combustion products will blow away you.
- 6. **DO NOT REENTER THE AREA**. If a life may be in jeopardy, notify the professionals and let them enter with proper equipment. A significant number of fire fatalities result when people who have successfully evacuated a fire area return to retrieve a valued item or to search for someone missing.

#### Weather Related Emergency

The on-site event organizer will be responsible for determining if weather conditions become a hazard to personnel/patrons at the activity. Choose the safest alternative.

#### **Before Any Event:**

Before any event, the on-site event organizer shall research types of weather that may occur during the particular time of year the event is scheduled. Once potential hazardous weather or conditions are identified, mitigation, preparedness and training efforts will be included in the event planning.

#### Lightning:

In the event of weather conditions with the potential of lightning activity, careful monitoring of the weather dynamics is required. Such factors as the developing cloud patterns in the area, the lightning, and thunder activity should be considered. In conditions where there is observable thunder and lightning, outdoor activities shall be suspended until thunder can no longer be heard.

## Outdoor Special Event Emergency Operations Plan (EOP)

IMPORTANT - PLEASE READ THIS DOCUMENT IN ITS ENTIRETY

There is no safe place outside when thunderstorms are in the area. Evacuate to substantial buildings, enclosed parking structures and hard-topped vehicles are safe options. A safe building is one that is fully enclosed with a roof, walls and floors, and has plumbing or wiring (excludes temporary, portable, or metal buildings).

#### Lightning Safety Rules:

- Keep an eye on the sky,
- If you see or hear a thunderstorm coming, immediately suspend outside activity and go to a safe building or vehicle,
- Postpone activities promptly; do not wait for rain.
- If you cannot get to a shelter, stay away from trees,
- If you are out in a field, get to the lowest point,
- Move away from a group of people,
- Avoid metal,
- Avoid contact with electrical equipment or cords,
- Avoid contact with plumbing,
- Stay away from windows and doors, and stay off porches,
- Do not lie on concrete floors and do not lean against concrete walls.

#### Wind:

Power outages may occur with as little as twenty-five mile per hour winds and can up-root trees with shallow roots. If an event has tents, be cautious of the stability of the structure. All tents must have a City permit, have 50# of weight per leg and be inspected by the PCMC Building Dept. Wind can pose a hazard to participants or spectators, and if the on-site event organizer determines that winds pose a life safety issue, then activities shall be suspended.

#### Hail:

Most hailstorms develop in the presence of cumulonimbus clouds and other severe weather phenomena. Hailstones can cause serious damage, notably to automobiles, aircraft, skylights, glass-roofed structures, and people. Hailstorms rarely last more than 15 minutes. Some safety tips for hailstorms that an on-site event organizer should know or may want to pass on to participants are as follows:

- If you are outside, get inside.
- If you cannot find shelter, at least find something to protect your head.
- Stay away from windows.

#### **Excessive Heat:**

Heat is the number one weather-related killer in the United States, resulting in hundreds of fatalities each year. On average, excessive heat claims more lives each year than floods, lightning, tornadoes, and hurricanes combined. In planning for outdoor activities during a heat wave, consider certain precautions, e.g., can the event be scheduled in the morning or evening hours when it is cooler? The on-site event organizer will offer or encourage participants to:

- Drink or have plenty of water available. Avoid alcoholic and high sugar drinks.
- Encourage participants to wear lightweight, light-colored, and loose-fitting clothing,
- Wear a wide-brimmed hat, sunglasses, and sunscreen.

Provide cooling places with misting stations.

#### Microburst Rainfall:

Microburst rainfalls occur within a plume of air with high amounts of moisture are directed around a cold-core low or tropical cyclone. Flash flooding can frequently occur in of slow-moving thunderstorms in urban environments where less plants and bodies of water are present to absorb and contain the extra water. Should excessive rainfall occur during an event, the on-site event organizer will:

- Listen to the radio or television for information.
- Be aware that flash flooding can occur. If the event site is in a low-lying area with the potential to flood, move immediately to higher ground.

Page 2 of 6

## **Outdoor Special Event Emergency Operations Plan (EOP)** IMPORTANT – PLEASE READ THIS DOCUMENT IN ITS ENTIRETY

- Be aware of streams, drainage channels, and other areas known to flood suddenly.
- Let participants know not to walk through moving water. Six inches of moving water can make you fall.
- Let participants know not to drive in flooded areas. If floodwaters rise around a car, abandon it. Move to higher ground.

#### Ice Storm:

Ice storms are caused by liquid precipitation freezing on cold surfaces and leads to the gradual development of a thickening layer of ice. The accumulation of ice during the storm can be extremely destructive. Trees and vegetation can be destroyed and ice can down power lines, causing loss of heat and communication lines. Because ice storms are usually slow developing, the on-site event organizer will monitor the weather before, during, and after the event. Mitigation efforts may include sanding or salting walkways, stairways, and roads, shortening the event, or offering shuttle service to minimize the number of cars and/or pedestrians on hazardous roadways.

#### **Blizzard:**

- Find a dry shelter. Cover all exposed parts of the body
- If shelter is not available:
  - Prepare a lean-to, wind break, or snow cave for protection from the wind. •
  - Build a fire for heat and to attract attention. Place rocks around the fire to absorb and reflect heat.
  - Do not eat snow. It will lower your body temperature. Melt it first.

#### Earthquake:

The danger of an earthquake is high however it is unknown when such earthquake will happen. Should the large earthquake that's predicted happen (that is a 7.0 magnitude in the valley), it may result in a 5.6-5.8 magnitude here in Park City and surrounding areas. Precautions should be in place should the earthquake occur and event personnel should be aware of the danger and the procedures for safety and evacuation.

- Initially Drop Cover and Hold On •
- Stay calm and await instructions from emergency personnel or a designated official. •
- Keep away from overhead fixtures, windows, filing cabinets, and electrical power.
- Assist people with disabilities in finding a safe place.
- Evacuate as instructed by a designated official. Be aware of falling objects as you exit a structure or hazards on the ground or in the area.

#### Park City Permit for Relief of Noise Restrictions

A Permit for Relief of Noise Restrictions is required of any person or company that engages in an activity in violation of Park City Code 6-3. Per the Park City Code Section 6-3-11, applications for a permit for relief from the noise restrictions may be made to the Chief of Police as it pertains to special events, community, or private functions or events. Any permit granted by the Chief of Police, or his/her designee shall contain all conditions upon which the permit has been granted, including, but not limited to, the effective dates, time of day, location, sound pressure level, or equipment limitation and name and contact information for the on-scene officiator. The applicant is required to provide an on-site officiator at the event to ensure compliance with the noise restrictions and be available for contact if there are complaints. Additionally, the applicant is required to provide a map of the event location showing stages, speakers and other sources of noise.

Applicant's Name:	
Phone #:	Address:
Purpose of Activity and description	of noise-making activity and equipment:
	h noise generating activity will occur):
Date(s) of Event: Time of .	mplified Noise (Include Sound Check):
Type of Noise Generated:	-
Estimated Maximum Number of Po	ople in Attendance:
Level of Noise Permitted:	
stated above is correct. As the appl between the times of to	Hedge and understand Park City Code 6-3 and certify that all information cant, I will have amplified sound no higher than a decibel limit of (all permits expire at 10:00 PM). Should I violate the terms of the dy the situation or be subject to the penalties listed below.
Signature:	Date:
Responsible person who will be att	ending the event and will be monitoring noise levels:
Onsite Officiator:	Phone:
Please Note:	
The officiator is change of the most	s remarkible to monitor and maintain the normissible sound lovels shalled a

The officiator in charge of the event is responsible to monitor and maintain the permissible sound levels spelled out in this permit. Additionally, the officiator is responsible to mitigate complaints received by the Park City Police Department. Failure to mitigate complaints immediately, once brought to the officiator's attention, may result in a criminal citation and/or a revocation of this permit.

Date:

The applicant may be required to contact surrounding property owners. When completed, documentation of hose contacts (with contact information) shall be provided.

**Required Information:** 

The following residential property owners have no objection to the type of noise that will occur at the location, and at the date and time, given above:

The following residential property owners have objection to the type of noise that will occur at the location, and at the date and time, given above:

Please Note: As per Park City Code Section 6-3-4, the Police Department shall be responsible for the administration of these rules and regulations and any other powers vested in it by law and shall make inspections of any premises and issue orders as necessary to effect the purposes of these regulations, and do any and all acts permitted by law that are necessary for the successful enforcement of these regulations.

As per Park City Code Section 6-3-14, the Police Department may upon discovery or report of a violation be able to issue a criminal citation for the violation or may file a report with the City Prosecutor's Office for review and issuance of information and summons to court to answer the charges.

As per Park City Code Section 6-3-15, any person who is found guilty of violating any of the provisions of these rules and regulations, either by failing to do those acts required herein or by doing a prohibited act, is guilty of an infraction. Each day such violation is committed, or permitted to continue, shall constitute a separate violation. The City Attorney may initiate legal action, civil or criminal, requested by the Department abate any condition that exists in violation of these rules and regulations. In addition to other penalties imposed by a court of competent jurisdiction, any person(s) found guilty of violating any of these rules and regulations shall be liable for all expenses incurred by the Department in removing or abating any nuisance or other noise disturbance.
